

Take a load off and save

Replacing your old refrigerator, freezer, clothes washer or dishwasher with new ENERGY STAR® models, could reduce your monthly energy bill, your water use and your impact on the environment.

When shopping for new appliances, look at the EnerGuide label attached to the appliance. It will help you understand the energy consumption for each model, as well as how it compares to different models.

Two price tags

Appliances come with two price tags – the purchase price and the long term cost to operate. Look for the ENERGY STAR logo – appliances with this logo are more energy efficient, cost less to run and may qualify for rebates.

Rebate application

Make of old refrigerator

Age of old refrigerator

To be eligible for the above rebate, a new, qualifying appliance must be purchased and delivered to your home prior to December 31, 2012 and confirmed by sales receipts by March 31, 2013. Rebates are available to residential customers located in the FortisBC electric service area and the service areas of Grand Forks, City of Kelowna, Summerland, Penticton and Nelson Hydro. This offer may be modified at any time by FortisBC Inc. without prior notice. Applications will be accepted on a first come first serve basis. Only one rebate application will be accepted per household.

The refrigerator take-back rebate is only available when the old refrigerator is be picked up at the same time as the new model is delivered. The old refrigerator must be more than 10 years old, working condition and be a minimum of 250 litres in gross volume.

A complete list of terms and conditions is available at fortisbc.com/appliances. For more information about this program, please contact FortisBC at 1-866-436-7847 or by email at PowerRebates@fortisbc.com.
