terms and conditions				
To be eligible for a rebate or loan, I understand that the residence where the upgrades are being installed must be in FortisBC Inc.'s service territory (this includes the City of Kelowna, City of Penticton, City of Nelson, District of Summerland, and Grand Forks) and must have an active account.				
I understand that if requested by FortisBC Inc., reasonable access must be provided to the residence where the GSHP has been installed, to permit FortisBC Inc.'s representative to verify compliance with program criteria. Payment of rebates maybe withheld or denied if an inspection cannot be conducted, or if any information stated has been misrepresented or cannot easily be confirmed.				
I agree that the selection, purchase, installation and ownership/maintenance of the products and measures listed in the rebate application are my sole responsibility and that the supplier/installer of these products is not affiliated with FortisBC Inc.				
I understand that neither FortisBC Inc. make any representations or warranties of any kind, expressed or implied, concerning any products or measures, whether or not a rebate is claimed in respect of the products or measures.				
I agree that neither FortisBC Inc. hold any liability concerning the quality, safety, performance and/or installation of products or measures; the estimated energy savings of the products or measures; the workmanship of any third parties; and the installation or use of the products or measures. Installation or use of the products or measures.				
I am responsible for complying with all program requirements and for compliance with all building/permit regulations and codes prior to installation.				
I understand that in consideration of the FortisBC rebates for energy efficiency, I agree that FortisBC Inc. will be entitled to related Green House Gas credits.				
I certify that I have: read and understand the above terms and conditions; that the information I have provided in this application form is true and correct; and that the heat pump, for which I am requesting a rebate or loan, has been installed to my satisfaction at the location address shown.				
I DECLARE THAT I AM THE HOMEOWNER AND THAT THE INFORMATION ON THIS FORM IS, TO THE BEST OF MY KNOWLEDGE, ACCURATE AND COMPLETE				
Signature: _____ Print Name: _____ Date (dd/mm/yy): _____				

Stay cool all summer, stay warm all winter, and save up to 65% on your home's heating and cooling costs with a ground source heat pump (GSHP).

## program requirements

- Must be a customer of FortisBC, or one of the following municipal utilities: Grand Forks, Kelowna, Penticton, Summerland or Nelson Hydro.

## what are the benefits of a gshp?

- Ground Source Heat Pumps (GSHP) are the most energy efficient heating and cooling systems available today. For each unit of electrical energy required to operate the system, three units of energy are collected to provide your home's heating, cooling and hot water requirements. The result is a reduction in your energy costs by up to 65%.

## how does it work?

- Solar energy stored in the ground is captured in a solution circulating through a closed loop of buried piping and carried back to the heat pump installed inside your home. Alternately the water from an open loop system (well, river, lake etc.) is utilized by the heat pump. The heat pump distributes heat indoors during winter by operating as a furnace, and collects it during summer, by reversing to function as a central air conditioner.

## financial incentive options

- Apply for a rebate of \$200. a ton
- OR
- Apply for a loan of up to \$5000 financed at 4.9% over 10 years OAC. Contact your local PowerSense representative for preapproval.

## qualifying projects

- A GSHP project must meet our program criteria to be eligible for a PowerSense grant or loan. Program criteria are as follows:
  1. The GSHP will be installed in a residential dwelling.
  2. The GSHP system uses either a closed loop i.e. under-ground piping or an open loop e.g. well, if the water source is suitable.
  3. The system equipment, design and installation meets CSA Standards.

Did you remember to sign the application and attach invoices?
